

SOC/L1 - 5.5. The Greenholt Phish

Task: Message That Doesn't Add Up

A sales executive at Greenholt PLC has reported a suspicious email received from a known customer. The message raised several red flags: a generic greeting, an unexpected request for a money transfer, and an unsolicited attachment.

According to the employee, this behavior does not align with the customer's usual communication style. Concerned that the email may be malicious, the message has been escalated to the SOC (Security Operations Center) for further investigation. Your goal is to analyze the provided email sample and determine whether it is legitimate or part of a phishing attempt.
